

Leadership Strategies For Community College Effectiveness

“Leadership always matters for African American families and communities.”

—HENRY L. ALLEN (from chapter 1)

What are some practical, biblical principles of leadership that can be implemented in the African American Christian community? What are current models for effective leadership in African American churches and parachurch organizations? This book answers those questions and more with up-to-date research and current best practices regarding leadership principles and strategies.

Thirteen thinkers and doers put African American leadership in historical perspective, offer how-tos on leadership, and suggest how to handle its pressures. They also explore the roles of youth and women in leadership. Of special interest are quotes on leadership from past, present, and future leaders.

Parker Books are written to equip and encourage African American ministry leaders.

LEE N. JUNE (PhD, University of Illinois) is a professor in the Honors College, Department of Psychology, and in the African American and African Studies program at Michigan State University. Dr. June has also served as vice president for Student Affairs and Services and assistant provost for Academic Student Services and Multicultural Issues at Michigan State University.
